PROJECTS

CodeAyyy

Jan 2015 - Jan 2015 Washington DC

CodeAyyy was a game created by my team at CodeDay DC Winter 2015

- The game was set to mimic a hackathon environment with the main character trying to make it through without sleeping.
- In order to make the game more accessible, it was published on a web server.

EXPERIENCE

Web Administrator

FIRST Robotics Team 5549

Jan 2015 - ongoing Falls Church, VA

Marshall HS's robotics team participated and was awarded the Rookie All-Star award in the 2015 season.

- As a Website Administrator, I deployed a fast and responsive website for my High School's robotics team with a budget of \$0. I integrated various technologies into the website for a better user experience.

Team Captain

CyberPatriot Team 07-1719 and 08-1998

Oct 2014 - ongoing Falls Church, VA

CyberPatriot is the National Youth Cyber Education Program. At the center of CyberPatriot is the National Youth Cyber Defense Competition. The competition puts teams of high school and middle school students in the position of newly hired IT professionals tasked with managing the network of a small company.

- Even though we were a first year team, I lead my team to achieve Platinum Round Status.

EDUCATION

IB High School Diploma Track

George C. Marshall High School

Sept 2014 - June 2018

GPA

3.88 / 4.00

ACHIEVEMENTS

Creating a fast and responsive website with \$0

I created a website for my robotics team under a tight budget of zero dollars.

Attended World Championships for FIRST Robotics Competition

My school's robotics team, advanced to the World Championships for FIRST Robotics Competition
